

## Student Transportation Inc. CEO to Appear on Canada's Business News Network

WALL, N.J., Sept. 14, 2015 (GLOBE NEWSWIRE) -- [Student Transportation Inc.](#) (STI) (TSX:STB) (NASDAQ:STB), North America's largest independent school transportation provider, announced today that its Chairman and CEO Denis Gallagher is scheduled to appear tomorrow on Business News Network's *The Street* with host Paul Bagnell and guest co-host Patrick Horan, Principal of Agilith Capital. Mr. Gallagher's segment will be at 7:30 AM EDT where he will discuss STI's fiscal year 2015 performance which beat analysts' expectations.

"This is a great opportunity to tell our story about how we have had consistent financial results for the last ten years, including this past fiscal year," stated Mr. Gallagher. "Kids are back in school and our year has already gotten off to a great start. The drop in global fuel prices is producing significant savings. We lowered debt and are increasing revenues per bus while reducing costs with new systems and on-board technologies. Tomorrow we are paying our 128<sup>th</sup> consecutive monthly dividend and the Board just approved the dividend for the next quarter once again. While these are volatile times in the financial markets, now is an exciting time for us and a tremendous time to buy STB."

*The Street* is a fast-paced look at overnight developments and breaking business news affecting today's financial markets. The program offers viewers the latest company developments, economic reports and information from Europe and North America.

The interview will be archived and can be viewed on the [Business News Network](#) website as well as STI's website at [www.RideSTBus.com](http://www.RideSTBus.com).

### About Student Transportation Inc.

Founded in 1997, Student Transportation Inc. (STI) is North America's most trusted provider of student transportation solutions, operating nearly 13,000 vehicles. STI's family of local companies delivers safe, reliable and cost-effective transportation, management, logistics and technology solutions to a wide range of customers throughout the U.S. and Canada.
